

Niseko Villa

Hokkaido, Japan

Villa 1700 Fact Sheet

This is undoubtedly the most impressive and luxurious chalet in the Main Village, set over three floors and approximately 400sqm. It offers a rare combination of privacy, design, luxury, comfort and unobstructed views of Mt Yotei. Only a short stroll from the centre of the village, this is one of the very few houses in Hirafu that has a truly secluded setting.

The interior is absolutely stunning, featuring vaulted ceilings and vast picture windows overlooking the rice terrace valley and Mt Yotei beyond. The open living/dining area is characterised by the traditional use of Canadian wooden beams blended with modern and sleek interior furnishings with heated timber floor. The oversized handmade Siberian elm wood dining table, white marble fire place and huge lounges are perfectly set up for entertaining.

From early morning, the sun streams into the spacious interior, flooding this fabulous chalet with warmth and light. This home is fully heated by environmentally conscious geothermal heating. In addition, for groups that have hired a car the internal access garage and heated driveway offer off-street parking for up to 6 vehicles.

This house comes with FREE use of rental 4WD van - offer valid from December 15, 2015 - March 31, 2016. A valid international driving license issued is required.
